Philosophy of St. Joseph Convent

We, residents and staff, share the belief that each person is unique, that quality life is our priority, that compassion and care is our dedication and that technical and professional competence is our standard.

We minister together to provide an environment...

- ❖ where the integrity of aging can develop and unfold in an atmosphere of compatibility and concern,
- ❖ where compassion and care are one with technical and professional excellence,
- ❖ where activities and programs strive to be individualized at the pace of each person,
- ❖ where the surroundings facilitate comfortable group living, provide for quiet and privacy, and express the values of the School Sisters of St. Francis.

Therefore, St. Joseph Convent is an environment...

- ❖ where each person continues to experience support and challenge,
- ❖ where each person continues to serve and advance human life in accord with her ability,
- ❖ where each person continues to develop her relationship with God and the people of God,
- ❖ where residents and staff reach out to each other as well as to the neighborhood in a spirit of giving, healing and defending LIFE.
